

# Wire and Cable Materials Data Management and Assessment software

Collect → Assess → Document

## Collect

Improved materials data collection

**Save valuable time.** Clients say they can spend up to 20% of their day trying to collect supplier data.

Digital system to gather and manage information

**Increases quality and accuracy** of data collected from suppliers

**Improves supplier engagement** and response times

9+

Our basic offering assesses **wire and cable materials** against nine regulations, standards and substances of concern. Additional regulations and standards can be reviewed with our premium offering.

- RoHS
- REACH
- Flame retardants
- WEEE
- TSCA
- PFAS
- Prop 65
- IEC
- Phthalates

## Assess

Make data-based compliance decisions

## Document

Easily create documents and reports

**The rate of regulatory changes is rapidly increasing** – a growth in new daily regulations of 108% between 2021 and 2022\* alone – making it a constant challenge not only to keep up, but to easily create product documents and regulatory reports.
