

EMV® Level 3 terminal testing platform

Our EMV® Level 3 terminal testing platform (L3TTP) provides 24/7 access to issuer host simulators for terminal L3 testing. The system supports Visa, Mastercard, American Express, Discover, Diners, UnionPay and JCB.

The project management platform is a cloud-based solution that offers the host responses as a managed service. The L3TTP is a perfect solution for acquirers and payment schemes that want to modernize their onboarding processes for their partners.
